

5 Reasons why Students LOVE our Skype Lessons

We use our Skype lessons for stars and students all around the world. Now days with high speed internet connection and the vast improved communication technology, we have clear video and audio on our calls. This makes it very easy for our students around the world to experience our first-class expertise. Our Skype lessons allow you to continue to learn in a way that fits with your life. Can be done from anywhere.

1 – Convenience. Being able to have their vocal instruction at home or somewhere else, makes it easy for our students to be able to receive regular vocal instruction and in a way that fits in with busy lifestyles.

2 - Some students, including stars, just do not have the time to attend a regular appointment in person. For example if they are touring, they are away for months at a time. Our Skype lessons make it easy for them to continue their vocal instruction without missing out!

3 – Many of our students find it economical to have these lessons as they do not need to fly in or go through traffic yet still get to experience our top-class vocal instruction.

4 – Your lesson can easily be recorded as video or audio file right from your home based computer.

5 – You don't even have to be at home! Many of our clients today are using Skype right from their iPhone, (Skype is a free app)for example we have one student who has his lessons during lunch break in car. Many take lessons from iphone while on family vacations, and in most cases performing artists schedule lessons Directly Prior To Their Own Concerts while being prepped for stage ex while hair is being done.

This is all while using both video and audio.

So as you can see... the idea is you get to experience YOUR lesson in a way that fits with YOUR life. We at Sing Your Style Studio are not just about offering the best in vocal instruction, but through our Skype lessons, we are offering them in a way that is best and easy for you. Regardless of your preference we will quickly diagnose "the issue" and begin to "fix" it just as fast. Call us today and let the speed of our fix do the talking!

Lessons over Skype are easy! Please make sure you follow these simple steps.

(Using Headphones on your iPhone and/or Webcam on your computer is optional...really makes no difference in how well the lessons work. Again most of our students use Skype video and audio directly from iPhones.)

- Skype installed (Skype is free software which can be downloaded from www.skype.com). If you are using your iPhone, you can download it as a free app in the App store.

-Register on Skype and send us a Skype contact request.

-You can find us by searching Skype for the email "info@singyourstyle.com"

-Please remember to **SEND US A FRIEND REQUEST**. Also, as a double confirmation, and please **SEND US AN EMAIL** including your Skype Id, so we can verify who's valid before accepting friend requests.
